

CANDENTE GOLD CORP.
(An exploration stage company)

Audited Consolidated Financial Statements
From Incorporation on April 24, 2009 to March 31, 2010

(Expressed in U.S. Dollars)

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying consolidated financial statements of Candente Gold Corp. and its subsidiaries, the Management Discussion and Analysis and the information contained in the company's annual filing are the responsibility of management and have been approved by the Board of Directors. The consolidated financial statements necessarily include some amounts that are based on management's best estimates, which have been made using careful judgment.

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles. Financial and operating data elsewhere in the annual filing are consistent with the information contained in the financial statements.

In fulfilling their responsibilities, management of Candente Gold Corp. and its subsidiaries have developed and continue to maintain systems of internal accounting controls, and segregation of duties and responsibilities whenever possible.

Although no cost effective system of internal control will prevent or detect all errors and irregularities, these systems are designed to provide reasonable assurance that assets are safeguarded from loss or unauthorized use, transactions are properly recorded and the financial records are reliable for preparing the consolidated financial statements.

The Board of Directors carries out its responsibility for the consolidated financial statements in this annual filing principally through its Audit Committee, consisting of non-executive directors. The Audit Committee meets periodically with management and with the external auditors to discuss the results of audit examinations with respect to the adequacy of internal accounting controls, and to review and discuss the consolidated financial statements and financial reporting matters.

The consolidated financial statements have been audited by D&H Group LLP, Chartered Accountants, who have full access to the Audit Committee, with and without the presence of management.

AUDITORS' REPORT

To the Shareholders of
Candente Gold Corp.

We have audited the consolidated balance sheet of Candente Gold Corp. as at March 31, 2010 and the consolidated statements of operations and comprehensive loss, deficit and accumulated other comprehensive loss, and cash flows for the period from incorporation on April 24, 2009 to March 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2010 and the results of its operations and its cash flows for the period from incorporation on April 24, 2009 to March 31, 2010 in accordance with Canadian generally accepted accounting principles.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

1. Nature of Operations and Continued Operations

Candente Gold Corp. ("Candente Gold" or "the Company") was incorporated under the Business Corporations Act (British Columbia) on April 24, 2009. Candente Gold and its subsidiary companies are engaged in precious metals exploration in Mexico and Peru.

The Company has not yet determined whether its mineral properties contain reserves that are economically recoverable.

The accompanying consolidated financial statements have been prepared using Canadian generally accepted accounting principles applicable to a going concern. At March 31, 2010, the Company had no source of operating cash flow, an accumulated deficit of \$1,623,543 and working capital of \$5,876,835. Operations for the period ended March 31, 2010 were funded from a private placement financing completed by the Company in the period.

These consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Adverse conditions may cast substantial doubt upon the validity of this assumption. In the event the Company is unable to raise adequate future financing to fund operations and meet contractual obligations, the carrying value of the Company's assets could be subject to material adjustments. The accompanying financial statements do not reflect adjustments to the carrying values of assets and liabilities which may be required should the Company be unable to continue as a going concern.

The amounts shown as mineral properties represent acquisition costs to date and do not necessarily represent present or future values. Recoverability of the amounts shown for mineral properties is dependent upon the discovery of economically recoverable mineral reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain financing necessary to complete the exploration and development of its mineral property interests, and on future profitable production of proceeds from the disposition of the mineral property interests.

2. Summary of Significant Accounting Policies

These consolidated financial statements are prepared in U.S. dollars, unless otherwise noted, in accordance with generally accepted accounting principles in Canada ("Canadian GAAP").

(a) Principles of Consolidation

These consolidated financial statements include the accounts of Candente Gold's wholly-owned subsidiaries, Canaco Resources (BC) Inc., Candente Mexico Resource Corp., Minera CCM, S.A. de C.V. and Candente Gold Peru S.A.C. All significant intercompany transactions and balances have been eliminated on consolidation.

(b) Use of Estimates

The presentation of consolidated financial statements in conformity with Canadian GAAP requires the Company's management to make estimates and assumptions that affect the amounts reported in these financial statements and related notes. Management regularly reviews the estimates and assumptions that affect the consolidated financial statements, although actual results may be materially different from these estimates and assumptions. Areas where significant estimates and assumptions are required by management include the determination of impairment for capitalized mineral property expenditures, asset retirement obligations, future income taxes and the variables for use in calculating stock-based compensation.

(c) Impairment of Long-Lived Assets

Long-lived assets are tested for recoverability whenever events or changes in circumstances indicate that the related carrying amounts may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. The amount of any impairment loss is determined as the excess of the carrying value of the asset over its fair value and is charged to the results of operations.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements

For the period from incorporation on April 24, 2009 to March 31, 2010

Expressed in U.S. Dollars, Unless Otherwise Noted

2. Summary of Significant Accounting Policies (continued)

(d) Asset Retirement Obligations

Asset retirement obligations refer to the recognition of any statutory, contractual or other legal obligation, related to the retirement of tangible long-lived assets when such obligations are incurred, if a reasonable estimate of fair value can be determined. These obligations are measured initially at fair value and the resulting costs are capitalized as part of the carrying value of the related assets. In subsequent periods, the liability is adjusted for the accretion of the discount and any changes in the amount or timing of the underlying future cash flows. These costs would be amortized to the results of operations over the life of the asset.

(e) Foreign Currency Translation

The Company's primary currency of measurement and reporting is the U.S. dollar, its functional currency. Monetary assets and liabilities denominated in currencies other than the U.S. dollar ("Foreign Currencies") are translated at the exchange rate in effect at the balance sheet date. Non-monetary assets and liabilities denominated in Foreign Currencies are translated at the exchange rate in effect at the transaction date. Revenues and expenses denominated in Foreign Currencies are translated at the average rate in effect during the period, with the exception of depreciation and amortization which are translated at historical rates. Gains and losses arising from the translation of monetary assets and liabilities in Foreign Currencies are included in the results of operations.

(f) Future Income Taxes

Future income taxes are accounted for using the asset and liability method. Under this method, future income tax assets and liabilities are recognized based on differences between the financial statement carrying values of the existing assets and liabilities and their respective income tax bases (temporary differences). Future income tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income during the years in which temporary differences are expected to be recovered or settled. The effect on future income tax assets and liabilities of a change in tax rates is included in the results of operations during the period in which the change is substantively enacted. To the extent that the Company does not consider it more likely than not that a future tax asset will be recovered, it provides a valuation allowance against the excess.

(g) Cash and Cash Equivalents

Cash and cash equivalents consist of cash on deposit and highly liquid, short-term money market instruments which, on acquisition, are redeemable within three months of the balance sheet date, and include accrued interest.

(h) Financial Instruments

Cash and cash equivalents are measured at fair value at the end of each period with any resulting gains or losses recognized in operations. Accounts receivable are recorded at amortized cost using the effective interest rate method, which upon their initial measurement is equal to their fair value. Subsequent measurement of receivables is at amortized cost, which usually corresponds to the amount initially recorded less any recoverability allowance. Accounts payable and accrued liabilities are measured at amortized cost using the effective interest rate method.

(i) Equipment

Equipment is recorded at cost and amortized on a straight line basis at the following rates: 3 and 3.34 years (Mexico) for computer equipment; and 4 years for vehicles.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

2. Summary of Significant Accounting Policies (continued)

(j) Mineral Properties

Mineral exploration costs are expensed as incurred. When it is determined that a mineral property can be economically developed as a result of establishing proven and probable reserves (which occurs upon completion of a positive economic analysis of the mineral deposit), the costs incurred to develop such property will be capitalized. Such costs will then be amortized using the units-of-production method over the estimated life of the ore body based on proven and probable reserves.

Payments related to the acquisition of land and mineral rights are capitalized as incurred. Prior to acquiring such land or mineral rights, the Company makes a preliminary evaluation to determine that the property has significant potential to develop an economic ore body. The time between initial acquisition and full evaluation of a property's potential is dependent on many factors including: location relative to existing infrastructure, the property's stage of development, geological controls and metal prices. If a mineable ore body is discovered, such costs are amortized when production begins. If no mineable ore body is discovered, such costs are expensed in the period in which it is determined the property has no future economic value.

Gains or losses from sales or retirements of assets are included in gain or loss on sale of assets.

(k) Stock-Based Compensation

The Company adheres to CICA Handbook Section 3870: "Stock-Based Compensation and Other Stock-Based Payments" ("Section 3870") which established standards for the recognition, measurement and disclosure of stock-based compensation and other stock-based payments made in exchange for goods and services. Section 3870 requires a fair value-based method of accounting for stock options granted to employees, including directors, and to non-employees.

(l) Transaction Costs

The Company recognizes transaction costs incurred in connection with the issuance of capital as share issuance costs which are netted against gross proceeds from related transactions rather than being expensed as incurred. Transaction costs for assets and liabilities classified as "held for trading" are expensed as incurred; transaction costs for financial instruments classified as "available for sale" are netted against gross proceeds from related transactions.

(m) Loss per Share

Basic loss per share is computed by dividing loss for the year by the weighted average number of common shares outstanding during the year. The computation of diluted earnings per share assumes the conversion, exercise or contingent issuance of securities only when such conversion, exercise or issuance would have a dilutive effect on earnings per share. The dilutive effect of convertible securities is reflected in diluted earnings per share by application of the "if converted" method. The dilutive effect of outstanding warrants is reflected in diluted earnings per share by application of the treasury stock method. Basic and diluted loss per share are the same as the effect of potential issuances of shares under warrants would be anti-dilutive.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

3. Adoption of New Accounting Standards and Accounting Pronouncements

Accounting Changes

Effective April 24, 2009 the Company adopted the following new accounting standards:

Goodwill and intangible assets

In February 2008, the CICA issued Handbook Section 3064 "Goodwill and intangible assets" which is required to be adopted for fiscal year-ends beginning on or after October 1, 2008. It establishes standards for the recognition, measurement, presentation and disclosure of Goodwill subsequent to its initial recognition and of intangible assets by profit orientated enterprises. The adoption of this new Section did not have any material impact on the Company's financial statements.

Credit Risk and Fair Value of Financial Assets and Liabilities

In January 2009, the CICA issued Emerging Issues Committee Abstracts ("EIC") 173, "Credit Risk and the Fair Value of Financial Assets and Financial Liabilities." This EIC provides guidance on how to take into account credit risk of an entity and counterparty when determining the fair value of financial assets and financial liabilities, including derivative instruments. Adoption of this EIC did not have a significant effect on the financial statements (Note 12).

Financial Instruments - Disclosures

The CICA amended Section 3862, "Financial Instruments – Disclosures," in 2009 to include additional disclosure requirements about fair value measurements of financial instruments and to enhance liquidity risk disclosures. Adoption of this standard did not have a significant effect on the financial statements (Note 12).

Accounting Pronouncements

International Financial Reporting Standards ("IFRS")

In 2006, The Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB's strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five-year transitional period. In February 2008, the AcSB announced that 2011 is the change of the date for publicly listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transitional date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended March 31, 2011. The Company has an IFRS implementation plan in progress.

Business combination, Consolidated Financial Statements and Non-controlling interest

For interim and annual financial statements relating to its fiscal year commencing on or after April 1, 2011, the Company will be required to adopt new CICA Section 1582 "Business Combinations", Section 1601 "Consolidated Financial Statements" and Section 1602 "Non-Controlling Interests". Section 1582 replaces existing Section 1581 "Business Combinations", and Sections 1601 and 1602 together replace Section 1600 "Consolidated Financial Statements." The adoption of Sections 1582 and collectively, 1601 and 1602 provides the Canadian equivalent to IFRS 3 "Business Combinations" and International Accounting Standard IAS 27 "Consolidated and Separate Financial Statements" respectively. The impact of adopting these new standards has not yet been assessed and cannot reasonably be estimated at this time.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

4. Equipment

	Cost	March 31, 2010 Accumulated Amortization	Net Book Value
Computer equipment	9,063	2,384	6,679
Furniture	1,085	-	1,085
Vehicles	8,785	4,392	4,393
	\$ 18,933	\$ 6,776	\$ 12,157

5. Transfer of Gold-Silver Properties from Candente Copper

On April 24, 2009, Candente Copper Corp. ("Candente Copper", formerly Candente Resource Corp.) and Canaco Resources Inc. ("Canaco") incorporated Candente Gold.

Candente Gold's focus is on exploration and development of precious metals projects in Latin America.

On April 30, 2009, Candente Copper and Canaco completed the transfer to Candente Gold of their respective 50% interests in Minera CCM, S.A. de C.V. ("CCM"), the Mexican company that holds an option on the El Oro gold property ("El Oro") in Mexico (the "Option"). As consideration for the transfer of the El Oro interests, Candente Gold issued 5 million common shares and a promissory note to each of Candente Copper and Canaco. Each promissory note has a principal amount of Cdn\$1,300,000 (\$1,239,157 at December 31, 2009), payable in cash or convertible into units of Candente Gold, based on the same terms and conditions as the private placement financing completed by Candente Gold in the quarter ended December 31, 2009. On December 31, 2009, Candente Copper converted its Cdn\$1,300,000 promissory note into 3,250,000 shares and 1,625,000 warrants of the Company. The warrants have an exercise price of Cdn\$0.60 per common share to January 4, 2012 (Note 10). Canaco advised the Company that it would not convert the note; the current repayment terms of the Canaco note are Cdn\$350,000 by June 30, 2010 and Cdn\$950,000 by April 30, 2011.

The Company recorded contributed surplus of \$52,046 in connection with the transfer of the el Oro Property, as follows:

Assets acquired:	
Cash	22,247
Accounts receivable	22,356
Equipment, net	9,226
Mineral properties	2,150,871
Liabilities assumed:	
Accounts payable	(4,817)
Consideration:	
Promissory notes	(2,147,837)
Contributed surplus	52,046

In addition, Candente Copper transferred its Peruvian gold-silver properties (the "Properties") to Candente Gold in the quarter ending December 31, 2009 and on January 6, 2010 the Company issued 13,500,000 common shares (Note 8(b)) to Candente Copper in return for the transfer of the Properties. Other consideration for the exchange of the Properties included the granting by the Company of a copper net smelter return royalty to Candente Copper. In addition, Candente Gold agreed to issue to Candente Copper an additional 10,000,000 of its common shares once a minimum of US\$5 million has been spent cumulatively by Candente Gold on the Properties.

The Company accounted for consideration in respect of the 13,500,000 Candente Gold shares at a value of \$4,422,011, comprised of the Candente Copper carrying cost of \$4,663,251 less \$241,240 due in cash to Candente Copper in respect of annual license costs paid for the Properties in 2009 by Candente Copper.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements

For the period from incorporation on April 24, 2009 to March 31, 2010

Expressed in U.S. Dollars, Unless Otherwise Noted

5. Transfer of Gold-Silver Properties from Candente Copper (continued)

Pursuant to TSX policy, on January 6, 2010, the Company was deemed to have issued 872,890 Company warrants to warrant holders of Candente Copper on the basis of one Company warrant for every five warrants in Candente Copper. The 4,364,450 Candente Copper warrants (the "Copper Warrants") have exercise prices ranging from Cdn\$1.75 to Cdn\$2.00 and expire on June 26, 2010. The Company will receive 24.06% of the exercise price on the exercise of the Copper Warrants, based on a predetermined formula that considered the weighted average prices of Candente Copper and Candente Gold on the first five days of Candente Gold's trading on the TSX.

Pursuant to TSX policy, on January 6, 2010, the Company was deemed to have issued 1,638,350 Company options to option holders of Candente Copper on the basis of one Company option for every five options in Candente Copper. The 8,191,750 Candente Copper options (the "Copper Options") had exercise prices ranging from Cdn\$0.42 to Cdn\$1.40 and expiry dates from January 3, 2011 to November 24, 2014. A total of 474,600 of these options were forfeited before March 31, 2010. The Company will receive 24.06% of the exercise price on the exercise of the Copper Options, based on a predetermined formula that considered the weighted average prices of Candente Copper and Candente Gold on the first five days of Candente Gold's trading on the TSX.

6. Mineral Properties

At March 31, 2010, mineral properties were comprised of interests in mineral claims and mining concessions located in Mexico and Peru. These interests are held by the Company, or through option agreements under which the Company, directly or through a joint venture arrangement, has a right to acquire an interest in mineral properties.

Acquisition costs are capitalized. Exploration expenditures are charged to operations in the period they are incurred.

The following are the capitalized mineral property acquisition costs at March 31, 2010:

	March 31, 2010
El Oro	
Acquisition costs	2,245,033
Peruvian Properties	
Acquisition costs	4,663,251
	<u>6,908,284</u>

On April 30, 2009, the Company completed the transfer of the El Oro property from Candente Copper at a cost of \$2,150,871 (Note 5).

On May 5, 2006, CCM, Candente Copper and Canaco entered into a letter agreement (the "2006 Agreement") with Luismin, S.A. de C.V. ("Luismin") and Desarrollos Mineros San Luis, S.A. de C.V. ("Desarrollos"), subsidiaries of Goldcorp Inc., that provided CCM with an option (the "Option") to acquire up to a 70% undivided interest in El Oro, subject to a 40% back-in right, in 24 mining concessions located in Mexico. Certain exploration and mining concessions included in El Oro are subject to net smelter returns royalties. The Option is comprised of an option to initially acquire 50% of El Oro (the "First Option") and then a further 20% (the "Second Option"), and both the issue of shares and the completion of certain levels of exploration expenditures on El Oro are required to exercise the Option.

A total of \$1,000,000 in exploration expenditures were made on El Oro by November 30, 2007 by Candente Copper and Canaco, and on or before November 30, 2008 Candente Copper and Canaco issued to Luismin a total of 125,000 shares in each of their respective registered capital, all as required by the 2006 Agreement as part of the consideration for the exercise of the First Option.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements

For the period from incorporation on April 24, 2009 to March 31, 2010

Expressed in U.S. Dollars, Unless Otherwise Noted

6. Mineral Properties (continued)

In two separate letter agreements dated February 2, 2009 (the "February 2009 Agreement") and September 30, 2009 (the "September 2009 Agreement"), the parties agreed to certain amendments to the 2006 Agreement. The most significant change was the removal of the back-in right on the historic mining area which covers all known gold and silver bearing veins. In accordance with the terms of the 2006 Agreement, as amended, each of Candente Copper and Canaco committed to issue to Luismin 125,000 common shares in their respective share capital on or before November 30, 2009, and agreed that the Company would:

- Commit to issue to Luismin 250,000 Candente Gold shares on or before November 30, 2009 (completed) and 250,000 Candente Gold shares on or before May 30, 2010 (Note 17));
- Be required to issue to Luismin 250,000 Candente Gold shares on or before November 30, 2010 and 250,000 Candente Gold shares on or before November 30, 2011, in order to complete the required share consideration for the exercise of the First Option;
- Commit to exploration expenditures of an additional \$1,500,000 to be completed on or before May 30, 2010;
- Be required to make an additional \$2,500,000 in exploration expenditures on or before November 30, 2011 in order to complete the required expenditure consideration for the exercise of the First Option;
- Be required to issue to Luismin 500,000 Candente Gold shares on or before November 30, 2012 and 500,000 Candente Gold shares on or before November 30, 2013 in order to complete the required share consideration for the exercise of the Second Option; and
- Be required to make an additional \$2,500,000 in exploration expenditures on or before November 30, 2012 and an additional \$2,500,000 in exploration expenditures on or before November 30, 2013 in order to complete the required expenditure consideration for the exercise of the Second Option.

On November 30, 2009, the Company issued 250,000 common shares at a cost of Cdn\$100,000 (\$94,162) to Luismin (Note 8(b)).

During the quarter ended December 31, 2010, the Company completed the transfer of the Peruvian Properties at a cost of \$4,663,251 (Note 5).

7. Related Party Transactions

During the period ended March 31, 2010, a total of \$201,085 for geological consulting services rendered was paid or accrued to officers or directors or to private companies associated with directors and officers of the Company. These amounts are included as a component of exploration costs.

During the period ended March 31, 2010, a total of \$94,619 was paid as salaries to various officers of the Company and \$47,535 was paid or accrued to private companies associated with officers and directors of the Company for management services rendered. These amounts are included in general and administrative expenses.

Included in accounts receivable at March 31, 2010 is \$10,842 owed to the Company by certain officers for expense advances. Included in accounts payable and accrued liabilities at March 31, 2010 is \$41,869 owed by the Company to certain officers and directors of the Company for services rendered, reimbursement of expenses and directors' fees.

The above transactions have been recorded at the exchange amounts agreed to by the related parties. Amounts due to related parties are considered by the Company to be accounts payable and are unsecured and non-interest bearing.

At March 31, 2010, a director and officer of the Company served as a director and officer of Candente Copper and three of the Company's officers served as officers of Candente Copper (Note 5). During the period ended March 31, 2010, the Company and Candente Copper shared certain office and administrative expenses and Candente Copper made certain payments on behalf of the Company. As of March 31, 2010, a total of \$66,722 was due from the Company to Candente Copper for reimbursement of shared general and administrative expenses.

8. Share Capital

a) Authorized: An unlimited number of Common Shares and an unlimited number of Preferred Shares, all without par value.

b) Issued and Outstanding:

	Number of Common Shares	Amount
Balance at April 24, 2009	-	-
Issue of shares – private placement, net of issue costs	22,570,327	6,585,655
Issued for mineral property acquisition (Notes 5 and 6)	23,750,000	4,516,173
Issued on conversion of promissory note (Note 5)	3,250,000	1,239,157
Issued on exercise of stock options	8,000	3,911
Balance at March 31, 2010	49,578,327	12,344,896

During the quarter ended December 31, 2009, the Company completed a private placement (the "Private Placement") for gross proceeds of \$8,508,378 (Cdn\$9,028,130) from the sale of units ("Units") consisting of one Company common share and one half-warrant ("Warrants"). Pursuant to the Private Placement, the Company issued a total of 22,570,327 common shares and certificates representing 11,285,162 Warrants. Each full Warrant is exercisable at a price of Cdn\$0.60 per common share until January 4, 2012. The Warrants issued were valued by the Company at \$1,624,195. The Company also paid to the agents assisting in the Private Placement a total of \$298,528 (Cdn\$313,186) in cash commissions and issued to the Agents 735,345 warrants ("Agents' Warrants"). The cash commissions and Agents' Warrants equal 6.5% of the aggregate number of Units sold by the agents pursuant to the Private Placement. Each of the Agents' Warrants is exercisable for a period of 24 months to purchase one additional common share of the Company at a price of Cdn\$0.60 per share. The Agents' Warrants issued as finders' fees were valued by the Company at \$105,834.

9. Stock Options

The Company has a stock-based compensation plan (the "Plan") that allows for the issuance of options up to a maximum of 15% of the Company's issued and outstanding common shares at any given time. At March 31, 2010, the Company had options outstanding to purchase a total of 3,938,250 of its common shares, and was entitled to issue options to purchase 3,598,498 additional common shares under the Plan.

The purpose of the Plan is to attract, retain and motivate directors, officers, key employees and consultants of the Company and to advance the interests of the Company by providing eligible persons with the opportunity to acquire an increased proprietary interest in the Company. Under the Plan, the grant of all stock options, and vesting provisions, if any, are at the discretion of the Company's board of directors. The term of any stock option granted may not exceed ten years and the exercise price may not be lower than the closing price of the Company's shares on the last trading day immediately preceding the date of grant. In general, stock options granted under the Plan have a term of five years with vesting provisions over a twelve month period.

CANDENTE GOLD CORP.

9. Stock Options (continued)

A continuity summary of the stock options granted under the Plan is presented below:

	From April 24, 2009 to March 31, 2010	
	Number of Common Shares	Weighted- Average Exercise Price (CAD\$/Share)
Balance, beginning of period	-	-
Granted	2,782,500	\$0.64
Granted on transfer of gold-silver properties from Candente Copper (Note 5)	1,638,350	0.88 ¹
Exercised	(8,000)	0.42 ¹
Forfeited	(474,600)	1.47 ¹
Balance, end of period	3,938,250	\$0.64

¹ Actual weighted average prices of the Candente Options. The Company will receive or has received 24.06% of the exercise proceeds from these options, based on a predetermined formula that considered the weighted average prices of Candente Copper and Candente Gold on the first five days of Candente Gold's trading on the TSX.

A summary of stock options outstanding and exercisable at March 31, 2010 is presented below:

Range of Exercise Prices per Share (Cdn\$)	Stock Options Outstanding			Stock Options Exercisable	
	Stock Options Outstanding to Purchase Common Shares	Weighted- Average Exercise Price (Cdn\$/Share)	Weighted- Average Remaining Contractual Life (Years)	Stock Options Exercisable to Purchase Common Shares	Weighted- Average Exercise Price (Cdn\$/Share)
\$0.33 to \$0.48	659,000	\$0.42	4.40	659,000	\$0.42
\$0.64 to \$0.85	3,157,750	\$0.65	4.58	1,070,875	\$0.68
\$1.40 to \$1.80	121,500	\$1.43	2.22	121,500	\$1.43
	3,938,250	\$0.64	4.39	1,851,375	\$0.64

Pursuant to Toronto Stock Exchange ("TSX") policy, on January 6, 2010 the Company was deemed to have issued 1,638,350 Company options to option holders of Candente Copper on the basis of one Company option for every five options in Candente Copper. The 8,191,750 Copper Options have exercise prices ranging from Cdn\$0.42 to Cdn\$1.40 and expiry dates from January 3, 2011 to November 24, 2014. The Company will receive 24.06% of the exercise price on the exercise of the Copper Options.

Stock options outstanding expire between January 2011 and February 2015.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

9. Stock Options (continued)

The fair value-based method of accounting is applied to stock options granted to employees, including directors, and non-employees. The fair value of each option granted is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions:

	From April 24, 2009 to March 31, 2010
Risk-free interest rate	2.52%
Expected stock price volatility	90%
Expected life	5 years
Expected dividend yield	-
Weighted-average fair value per share under options granted	\$0.63

10. Share Purchase Warrants

In addition to the 11,285,162 Warrants and Agents' Warrants referred to in Note 8(b), on December 31, 2009, the Company issued 1,625,000 warrants ("Copper Warrants") to Candente Copper pursuant to the conversion of a promissory note. The Copper Warrants have an exercise price of Cdn\$0.60 per common share to January 4, 2012.

Pursuant to TSX policy, on January 6, 2010 the Company was deemed to have issued 872,890 Company warrants to warrant holders of Candente Copper on the basis of one Company warrant for every five warrants in Candente Copper. The 4,364,450 Copper Warrants have exercise prices ranging from Cdn\$1.75 to Cdn\$2.00 and expire on June 26, 2010. The Company will receive 24.06% of the exercise price on the exercise of the Copper Warrants.

A summary of the warrants outstanding at March 31, 2010 and April 24, 2009 and the changes for the periods ending on those dates is presented below:

	From April 24, 2009 to March 31, 2010	
	Outstanding warrants	Weighted average exercise price Cdn\$
Outstanding – start of period	-	-
Granted	13,645,507	0.60
Granted on transfer of gold-silver properties from Candente Copper (Note 5)	872,890	1.98 ¹
Exercised	-	-
Outstanding – end of period	<u>14,518,397</u>	0.68
Exercisable	<u>14,518,397</u>	0.68

¹ Actual weighted average prices of the Candente Warrants. The Company will receive 24.06% of the exercise proceeds from these warrants, based on a predetermined formula that considered the weighted average prices of Candente Copper and Candente Gold on the first five days of Candente Gold's trading on the TSX.

The fair value-based method of accounting is applied to the issuance of share purchase warrants on the date of issuance using the Black-Scholes model. The weighted-average fair value of the warrants issued in the period ended March 31, 2010 is Cdn\$0.15 calculated using the following weighted-average assumptions: 1.47% risk-free interest rate; expected stock price volatility of 90%; expected life of 2 years; and no expected dividend yield.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

11. Contributed Surplus

A continuity summary of contributed surplus is presented below:

	From April 24, 2009 to March 31, 2010
Balance, beginning of period	\$ -
Stock-based compensation as a result of stock options vested	404,244
Stock-based compensation as a result of share purchase warrants issued	1,624,195
Contributed surplus in association with transfer of El Oro (Note 5)	52,046
Balance, end of period	\$ 2,080,485

12. Accounting for Financial Instruments

Fair Values

The Company's financial instruments include cash and cash equivalents, amounts receivable, accounts payable and accrued liabilities and a promissory note payable. Financial instruments are initially recognized at fair value with subsequent measurement depending on classification as described below. Classification of financial instruments depends on the purpose for which the financial instruments were acquired or issued, their characteristics, and the Company's designation of such instruments.

The following table provides a comparison of carrying and fair values of each classification of financial instrument as at March 31, 2010:

	Loans and receivables	Available for sale	Held for trading	Other financial liabilities	Total fair value
	\$	\$	\$	\$	\$
Cash and cash equivalents	-	-	6,944,999	-	6,944,999
Amounts receivable	101,323	-	-	-	101,323
Accounts payable & accrued liabilities	-	-	-	206,828	206,828
Promissory note payable	-	-	-	1,275,510	1,275,510

The Company has made the following classifications for its financial instruments:

Cash and cash equivalents are classified as "Assets held for trading" and are measured at fair value at the end of each period with any resulting gains or losses recognized in operations. Accounts receivable are classified as "Receivables and loans" and are recorded at amortized cost using the effective interest rate method, which upon their initial measurement is equal to their fair value. Subsequent measurement of receivables is at amortized cost, which usually corresponds to the amount initially recorded less any recoverability allowance. Accounts payable and accrued liabilities and the promissory note payable are classified as "Other financial liabilities" and are measured at amortized cost using the effective interest rate method.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

12. Accounting for Financial Instruments (continued)

During 2009, CICA Handbook Section 3862, Financial Instruments – Disclosures, was amended to require disclosures about the inputs to fair value measurements, including their classification within a hierarchy that prioritizes the inputs to fair value measurement. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability directly or indirectly and
- Level 3 – Inputs that are not based on observable market data.

At March 31, 2010, the Company's financial instruments which are measured at fair value on a recurring basis were cash and cash equivalents. These financial instruments were classified as "level 1" instruments.

Credit Risk

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents and amounts receivable. Cash deposits are maintained with financial institutions of reputable credit in Canada, Peru and Mexico and are redeemable on demand. Most of the Company's cash and cash equivalents are held in Canada and invested in low-risk liquid instruments such as Guaranteed Investment Certificates ("GIC") issued by British Columbia Credit Unions. The GICs are insured on a no-limit basis under the Credit Union Deposit Insurance Corporation. The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the Company's maximum exposure to credit risk.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure it will have sufficient liquidity to meet liabilities when due. To the extent the Company does not believe it has sufficient liquidity to meet obligations, it will consider securing additional equity funding, or will engage in negotiations to extend terms with creditors. The Company manages liquidity by continuously monitoring and forecasting cash flows. As at March 31, 2010, the Company's liabilities were comprised of accounts payable and accrued liabilities all due with maturities of less than one year and a promissory note due on demand.

Foreign Exchange Risk

The Company faces certain foreign risk as its general and administrative expenses and deferred exploration expenses are incurred either in Canadian dollars, Mexican pesos or Peru soles, and these countries' currencies may appreciate or depreciate against the US dollar, the Company's reporting currency. It also has exposure risk with respect to amounts due for property maintenance payments, as these amounts are owed in currencies other than the US dollar. The Company's major source of cash proceeds is from the issuance of shares and traditionally these funds are received in Canadian dollars. The Company has chosen not to actively manage its foreign exchange risk. Notwithstanding, the Company continuously monitors this exposure to determine if any mitigation strategies become necessary. As at March 31, 2010, with other variables unchanged, a \$0.01 strengthening (weakening) of the Canadian dollar against the US dollar would have a \$57,509 effect on net loss. There would be no effect on other comprehensive loss.

Interest Rate Risk

Included in the results of operation of the Company is interest income earned on Canadian Dollar cash deposits. Interest income is not material to the Company. The Company has no outstanding debt subject to interest. Accordingly the Company's opinion is that there currently is no interest rate risk for the Company.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

13. Capital Risk Management

The Company manages as capital its share capital, cash and cash equivalents, accounts payable and accrued liabilities and to a lesser extent contributed surplus. The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can continue to acquire and explore mineral interests. The Company funds operations and exploration activities from the issuance of shares generally through private placements. On occasion, the Company issues shares to make property payments. The Company also issues stock options to incentivize directors, employees, officers and consultants.

The Company prepares an annual budget for exploration and operations, and initiates equity offerings or pursues strategic partnerships to ensure it is appropriately funded. The Company attempts to take advantage of favourable equity market conditions to reduce the cost and dilutive effect of equity. If market conditions are not favourable, the Company will extend, delay or cancel exploration programs and reduce discretionary spending.

Surplus cash is invested in low-risk liquid instruments such as secured GICs. There were no changes to the Company's approach to capital management during the year ended March 31, 2010. The Company is not subject to externally imposed capital requirements.

14. Income Taxes

A reconciliation of income taxes at combined statutory rates with the reported taxes and is presented below:

	From April 24, 2009 to March 31, 2010
Loss for the year	\$ (1,623,543)
Income tax recovery at combined basic tax rate	487,063
Effect of change in valuation allowance	(329,475)
Effect of non-deductible items	(155,958)
Other	(1,630)
Income tax recovery	\$ -

The significant tax effects of temporary differences resulting in future income tax assets are presented below:

	March 31, 2010
Future income tax assets:	
Non-capital loss carry-forwards	\$ 336,478
Mineral properties	1,393,094
Equipment	650
Share issue costs	99,894
	1,830,117
Valuation allowance	(1,830,117)
Future income tax assets	\$ -

At March 31, 2010, the Company had non-capital loss carry-forwards of approximately \$1.1 million and had resource related amounts available, subject to certain restrictions, for deduction against future taxable income in Canada. These losses, if not utilized, will expire annually and are available for use up to the 2029 taxation year.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

14. Income Taxes (continued)

The Company also had net operating loss carry-forwards for tax purposes of approximately \$24,000 and resource related amounts totaling approximately \$4.6million available, subject to certain restrictions, for deduction against future taxable income in Peru.

The Company also had net operating loss carry-forwards for tax purposes of approximately \$463,000, subject to certain restrictions, for deduction against future taxable income in Mexico.

Management believes that sufficient uncertainty exists regarding the realization of certain future income tax assets and that a valuation allowance is required.

15. Segmented Information

	March 31, 2010
Total assets:	
Canada	\$ 7,360,481
Peru	4,671,883
Mexico	2,251,812
	<hr/>
	\$ 14,284,176

16. Supplementary Cash Flow Information

	From April 24, 2009 to March 31, 2010
Cash received during the year for interest	\$ 12,005
	<hr/>
Cash and cash equivalents consist of:	
	<hr/>
	March 31, 2010
Cash	\$ 162,122
Cash equivalents	6,782,877
	<hr/>
	\$ 6,944,999

At March 31, 2010, cash equivalents consist solely of Guaranteed Investment Certificates ("GIC") issued by British Columbia Credit Unions. The GICs are insured on a no-limit basis by the Credit Union Deposit Insurance Corporation and can be converted into cash at anytime at the option of the Company.

The significant non-cash transactions during the period ended March 31, 2010 were:

- a) As consideration for the transfer of El Oro and other assets and liabilities assumed, the Company issued 10,000,000 shares at cost of \$nil and issued two promissory notes valued at \$2,147,837.
- b) As consideration for the transfer of the Peruvian Properties, the Company issued 13,500,000 shares valued at \$4,422,011.

CANDENTE GOLD CORP.

Notes to the Consolidated Financial Statements
For the period from incorporation on April 24, 2009 to March 31, 2010
Expressed in U.S. Dollars, Unless Otherwise Noted

16. Supplementary Cash Flow Information (continued)

- c) The Company issued 250,000 common shares valued at \$94,162 in connection with the Company's obligations with respect to the El Oro property.
- d) The Company recorded stock-based compensation of \$404,244, calculated using the Black-Scholes pricing model.

17. Commitments

The Company has committed to payments under operating leases for the rental of office spaces and accommodations. The future minimum lease payments are as follows:

Fiscal Year	
2011	\$ <u>35,301</u>

18. Subsequent Events

On May 28, 2010 the Company issued 250,000 common shares to Luismin in connection with the Luismin Agreement referred to in Notes 6 and 8(b).
