

NEWS RELEASE

Xali Gold to Present at the Moody Capital Solutions 2026 Conference

Vancouver, British Columbia, August 24th, 2026. Xali Gold Corp. (TSXV:XGC) (“Xali Gold” or the “Company”) is pleased to announce its participation at the upcoming Moody Capital Solutions 2026 Disruptive Growth & Life Sciences Conference, taking place September 9–10, 2026, in New York City. Joanne Freeze, President and CEO of Xali Gold, will be attending the conference, delivering an investor presentation and participating in scheduled 1-on-1 meetings with investors.

Ms. Freeze will provide an overview of the Company’s strategy for developing its flagship Pico Machay Gold Project in Peru, including preparations for the planned diamond drill program and the work already underway toward an updated Mineral Resource Estimate and Preliminary Economic Assessment (“**PEA**”). The presentation will also highlight the Project’s historical resource, recent exploration results and the significant news flow anticipated as Xali Gold advances Pico Machay over the remainder of 2026.

Presentation Information

Date: Wednesday, September 9, 2026

Time: 1:45pm ET

Location: Room 1, The Westin New York Grand Central, 212 E 42nd St, New York, NY

Presenter: Joanne Freeze, President and CEO

More info: <https://moodycapital.com/conference/>

About the Moody Capital Solutions 2026 Conference

The Moody Capital Solutions 2026 Disruptive Growth & Life Sciences Conference brings together public and private growth companies, pioneering innovators, investors, C-suite executives and industry professionals across biotechnology, medical devices, pharmaceuticals, healthcare technology and other growth industries. The two-day conference features company presentations, one-on-one investor meetings, fireside chats, capital markets and financing panels, and networking opportunities with institutional investors and family offices.

About Pico Machay

Pico Machay lies within the northern extent of the Southern Peru Epithermal Gold-Silver Belt and in the eastern part of Western Cordillera Andes within a well-established mining area/district (click [here for location map](#)).

Pico Machay was discovered in 1997 and explored by several juniors including Aquiline Resources (“Aquiline”) through 2009. Aquiline completed various engineering studies including resource estimations and metallurgical test work. These studies targeted an open pit heap-leach operation, which was expected to be low-cost and with a low strip ratio. Given that Aquiline’s engineering work, prior to that company’s acquisition by Pan American Silver Corp., was based on a long-term gold price

of \$700/oz and several exploration targets remain untested, Xali Gold considers the upside potential to be very strong.

About Xali Gold

Xali Gold is a gold and silver exploration company focused on advancing opportunities in the Americas. The Company is focused on the exploration and development of Pico Machay, an advanced exploration-stage gold project in Peru with a near-term production goal. Xali Gold maintains some exploration potential as well as two royalty agreements with third parties who have the rights to produce gold and silver from specific areas of the El Oro gold-silver Project in Mexico, a historic district-scale precious metal system with a long history of significant gold and silver production.

The Company's approach to community engagement and responsible development is guided by strong governance principles and Board oversight that support long-term stakeholder relationships.

Joanne C. Freeze, P.Geo. is a Qualified Person as defined by National Instrument 43-101 and has reviewed and approved the contents of this release.

Forward-looking Disclaimer

This press release contains forward-looking information within the meaning of Canadian securities laws ("forward-looking statements"). Forward-looking statements are typically identified by words such as: believe, expect, anticipate, intend, estimate, plans, postulate and similar expressions, or are those, which, by their nature, refer to future events. All statements that are not statements of historical fact are forward-looking statements.

Forward-looking statements in this press release include, without limitation: the timing to conduct updated exploration work on the Project, including optimizing prior engineering studies and timing to prepare a current mineral resource estimate for the Company (that is not a historical resource under NI 43-101); the timing to complete modelling, mapping and reconnaissance and sampling on the Project; the Company's plans to work with REINFO owners to sample previously drilled zones; timing to bring the Project into production, if at all; impacts of artisanal miners on the Project and environmental liabilities, if any; impacts and results of community engagement with indigenous populations located near the Project. These forward-looking statements are made as of the date of this press release. Although the Company believes the forward-looking statements in this press release are reasonable, it can give no assurance that the expectations and assumptions in such statements will prove to be correct. The Company cautions investors that any forward-looking statements by the Company are not guarantees of future results or performance, and are subject to risks, uncertainties, assumptions and other factors which could cause events or outcomes to differ materially from those expressed or implied by such forward-looking statements.

Known risk factors and assumptions include risks associated with exploration and project development; accessing further funding and related dilution; continuing its projected growth, or being fully able to implement its business strategies; the calculation of mineral resources and additional work required to convert historical resources to current mineral resources; the

nature, quality and quantity of any mineral deposits that may be located on the project; operational risks associated with mining and mineral processing; fluctuations in metal prices and assumptions including costs; title matters; government regulation; obtaining and renewing necessary consents, authorizations, licenses and permits; environmental liability and insurance; reliance on key personnel; local community opposition; currency fluctuations; labour disputes; competition; variations in market conditions, and the volatility of our common share price and volume; future sales of shares by existing shareholders; and other risk factors described in Xali Gold's MD&A and other filings with Canadian securities regulators, which may be viewed at www.sedarplus.ca. Although we have attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended.

There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Xali Gold expressly disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except in accordance with applicable securities laws.
